Getting Started

Try the New Chrome Extension Design

Google to Jira - GTJ improves your Google Apps to Jira integration, and allows you to manage Jira issues straight from your Gmail, Drive, or Calendar.

✅ If you are a Cloud user and would like to enjoy GTJ's features through different devices (Mobile, PCs, etc), we suggest using **GTJ Jira Connector** (Google Workspace Add-ons). You can find the installation steps here.

✅ If you are either a Cloud or Datacenter user and you make use of Chrome Web Browser, you can use our **GTJ Jira Connector** (Chrome Extension) . Simply follow the installation steps here.

	GTJ Jira Connector (Google Workspace Add-ons) 🔵	GTJ Jira Connector (Chrome Extension) 🌈
