

# Mobile for Jira

Mobile for Jira is a Jira mobile app enterprise solution that supports third-party app integration, available on both Android and iOS devices.

This app allows you to:

- Make the most of your Jira experience by taking your Jira boards and dashboards to your mobile phone and customizing how you can view your Jira issues.
- Take customer and agent interactions on the go by opening mobile communication channels through Jira Service Management, using Mobile for Jira for support agents, and [JSMobile](#) for customers.
- Customize the app to fit your brand's logo and colors with the branded solution.
