

Create Issue Screen - Tabs Features

Feature Overview

Create Issue screen now comes equipped with the ability to choose between different screen tabs. This will allow you more liberty when it comes to choosing the fields to fill out based on different criteria.

This guide will show you how to switch between the screen tabs.

Quick Steps

Step #	Action
1	From the Create screen, you can check the tabs screen
2	Select the desired tab
3	Fill the fields
4	You can scroll the bar to the right and check more tabs if their exist
5	Once done, click on Create Button
