

# v23

## Improvements

- Users can now log out from the 'Menu' screen
- An 'About' menu has been added to include: version, documentation, and support

[blocked URL](#)

## Bug fixes:

- Fixed error with images not showing
- Fixed error with the User drop-down removing IDs
- Improved session management
- Automatically refreshing the add-on upon Login
- Fixed error in showing all projects and applying pagination for a better performance
