

# Getting Started

[Try the New Chrome Extension Design](#)

**Google to Jira - GTJ** improves your Google Apps to Jira integration, and allows you to manage Jira issues straight from your Gmail, Drive, or Calendar.

✔ If you are a Cloud user and would like to enjoy GTJ's features through different devices (Mobile, PCs, etc), we suggest using **GTJ Jira Connector** (Google Workspace Add-ons). You can find the installation steps [here](#).

✔ If you are either a Cloud or Datacenter user and you make use of Chrome Web Browser, you can use our **GTJ Jira Connector** (Chrome Extension) . Simply follow the installation steps [here](#).

	GTJ Jira Connector (Google Workspace Add-ons) 	GTJ Jira Connector (Chrome Extension) 
<b>Supported Jira Hosting</b>	Cloud	Cloud & DataCenter
<b>Supported Platforms</b>	Install once available everywhere (Windows, MacOS, Linux, Android, iOS...)	Need a Chrome Browser to be used and doesn't support Mobile devices
